

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (currently amended) A mophead comprising:  
a holder,  
a flexible absorbent mop material held by the holder,  
and

a cleaning implement which is independent of the mop material and which is ~~one of permanently attached and~~ disengageably attachable to the holder at a position adjacent to the outside of the mop material,

said holder comprising an inverted channel in which said mop material is held, and an elongate recess which extends along a major portion of the longitudinal extent of the channel, the cleaning implement being receivable in the recess.

2-5. (canceled)

6. (currently amended) A mophead as claimed in claim 1, wherein the cleaning implement is one of positioned and ~~postionable~~ positionable on an edge of the holder.

7. (canceled)

8. (currently amended) ~~A cleaning implement for use with a mophead as claimed in claim 1, when the cleaning implement is releasably attachable to the holder, the cleaning implement~~

~~including~~ The mophead of claim 1, wherein the cleaning implement comprises an elongate element having a longitudinal extent which matches a major portion of a longitudinal extent of the holder, an abrasive element supported on the elongate element, and at least part of a retaining mechanism by which the cleaning implement is engageable with the holder of the mophead.

9. (currently amended) A cleaning implement as claimed in claim 8, ~~further including~~ wherein the abrasive element includes one of an abrasive pad and a scraper and a brush and a combination thereof.

10. (canceled)

11. (original) A cleaning implement as claimed in claim 8, wherein the said part of the retaining mechanism includes a channel element by which the cleaning implement is push-fit engageable with the holder.

12. (original) A cleaning implement as claimed in claim 11, wherein the said part of the retaining mechanism further includes a shoulder formed in the channel element for engagement with the holder of the mophead.

13. (original) A cleaning implement as claimed in claim 11, wherein the said part of the retaining mechanism further includes at least one slot formed in the channel element to enable engagement with the holder of the mophead.

14. (original) A mophead in combination with a cleaning implement as claimed in claim 8, wherein the retaining mechanism

further includes at least one catch element formed on the holder of the mophead to enable engagement with the channel element of the cleaning implement.

15. (original) A mophead as claimed in claim 1, wherein the mop material is a bundle of flexible strands.

16. (original) A mophead as claimed in claim 1, wherein the mop material is one of a sheet and sheets of flexible absorbent material.

17. (original) A mophead as claimed in claim 1, in combination with a mop wringer.

18. (original) A mophead as claimed in claim 1, in combination with a cleaning liquid container.

19. (original) A combination as claimed in claim 18, wherein the container includes a mop wringer.

20. (original) A mop having a mophead as claimed in claim 1.
